HAVE JUST RECEIVED
From LEE'S PATENT and FAMILY MEDICINE Store, New York,
A FRESH SUPPLY,
OF THE FOLLOWING GENUINE
MEDICINES.

A sovereign remedy for Colds, obstinate Coughs, Asthmas, sore throats, and approaching Consumptions, and most disorders of the Breast and Lungs.

The celebrity acquired by this medicine through the U. States, for speedily removing coughs, colds, hoarseness, &c. exceeds all former examples. The following recommendation, selected from a very numerous list, will fully confirm what has been said of its unparalleled excellence.

"*To* H. LEE.

"Being desirous to make public, for the good of others, the excellent quality of HAMILTON'S ELIXIR, prepared by the late Mr. LEE, I have sent you the following account of the benefit I have received from it, which I hope will induce others to give it a trial. In consequence of a bruise on the breast, received from a fall, my health grew bad, my breath being difficult, and frequently I have had suddenly to rise up in my bed, with all the horrors of immediate suffocation. Add to these, constant pain in my breast, a cough, a great loss of flesh and strength, and you may conceive that my symptoms evidently indicated an approaching consumption. The advice of a most eminent physician was resorted to, and afterwards a second was called in, but without giving me any relief. Another physician who knew me, and the circumstances of my case, advised me to give "*Hamilton's Elixir*" a trial, saying he had used it in his practice, and always found it to do much good. A bottle was procured, and I found relief before I had taken half of it. I continued to use it, and was soon strong enough to attend to business. On taking cold, some of my former symptoms returned, but are always removed by a dose or two of the Elixir.

"GEORGE BRENER, JR.
"*No.* 21, *Budd street, Philadelphia.*"

HAMILTON'S ELIXIR,

Will prove a valuable acquisition to public speakers, who may be subject to temporary hoarseness and thickness of speech. In long confirmed Asthmatic complaints where a cure can scarcely be expected, *this medicine affords immediate relief*, moderating the fits of coughing, and rendering their recurrence less frequent. On children afflicted with the hooping cough, the like beneficial effects may confidently be expected.

HAMILTON'S
WORM LOZENGES.

This medicine bears no analogy whatever to others of similar title, so commonly complained of as operating with violence; on the contrary, a particular excellence of this remedy is its being suited to every age and constitution. It contains nothing but what is perfectly innocent, and is so mild in its operation that it cannot injure the tenderest infant of a week old, should no worms exist in the body; but will without pain or griping cleanse the stomach and bowels, of whatever is foul or offensive, and thereby prevent the production of worms, and many fatal disorders.

HAMILTON'S
GRAND RESTORATIVE,

Is recommended as an invaluable medicine, for the speedy relief and permanent cure of

Nervous Disorders	Violent cramps in the stomach and back.
Consumptions	Indigestion
Lowness of spirits	Melancholy
Loss of appetite	Gout in the stomach
Impurity of blood	Pains in the limbs
Hysterical affections	Relaxations, &c.
Inward weaknesses	

HAMILTON'S
GENUINE ESSENCE & EXTRACT
OF MUSTARD,

A safe and effectual remedy for acute and chronic Rheumatism, Gout, Rheumatic Gout, Palsy, Lumbago, Numbness, White swelling, Chilblains, Bruises and Sprains, and pain in the Face and Neck.

This valuable remedy is prepared both in a fluid state and in pills, and thus excellently adapted for external and internal use.

ITCH CURED.

BY ONCE USING,

LEE'S SOVEREIGN OINTMENT.

The proprietor informs those persons and families who are suffering under this disease (against the infection of which no person is safe) that if this ointment is used at night on going to bed, it never fails to perform a cure by the following morning, as thousands who have used it during the last 10 years can testify. The peculiar excellencies of this infallible remedy for the ITCH, over every other, are the certainty of a cure by a single application; the ingredients being so innocent as to be applied with perfect safety to the tenderest infant, and its being not only free from any offensive smell, but equally agreeable with the most pleasant pomatum.

HAHN'S
TRUE AND GENUINE GERMAN
CORN PLAISTER,

An infallible remedy for Corns, speedily removing them root and branch, without giving pain.

THE RESTORATIVE POWDER,
FOR THE TEETH AND GUMS.

HAHN'S
GENUINE EYE WATER,

A sovereign remedy for all diseases of the Eyes.

HAHN'S
ANTI BILIOUS PILLS,

Celebrated for the mildness of their operation, for being the best known remedy for cleansing the stomach & bowels.

TOOTH ACHE DROPS,

The only remedy yet discovered which gives immediate and lasting relief in the most severe instances.

INFALLIBLE
AGUE AND FEVER DROPS,
For the cure of Agues, Remittent and Intermittent Fevers.

A multitude of attested cures performed by the above medicines, may be seen at the place of sale.

Purchasers are requested to remember that an engraved label with the signature of HANNAH LEE, widow of the late Richard Lee, Jr. is affixed to each of the genuine medicines.

A CERTAIN CURE
FOR THE RHEUMATISM.

POLYANDRIA,
OR,
The Essential OIL of the Cajiput Tree.
A MEDICINE,

UNIVERSALLY esteemed among the East Indians, as a safe and certain cure for the Rheumatism, Sciatica, Lumbago, Epilepsey, &c. restoring vigor after luxations and sprains, giving relief in pains of the head and neck, toothache, &c. and since it has been introduced into England (which is of very late date) has been highly recommended, by some of the most eminent physicians in London, as the best and most effectual remedy for the Gout as well as the Rheumatism, by dissolving the *Coagulated Lymph*, of which these diseases are formed. In wounded tendons it is of the greatest use by preventing the juice which oozes out of them from fixing. Bruises and sprains it infallibly cures, for it keeps the extravasated Lymph and blood perfectly dissolved, and prevents their fixing in the interstices of the vessels, till nature either takes them up by the refluent blood, or expels them through the pores of the skin.

Long contracted sprains are removed by it, and it is of the utmost service for the cramp and numbness, stiffness, or weakness of the joints. It is a most efficacious remedy for burns and scalds, extracting the fire very soon, and if used immediately, will entirely prevent them from blistering. It is excellent for a fresh cut. It is of infinite use for the sting of wasps, &c. bite of rattlesnakes, gnats and other venomous animals and other insects.

The above Valuable Medicine, has been but lately introduced into Europe and America in consequence of the Tree from which it is produced, yielding its essential Oil, but in small quantities, and this chiefly monopolized by the government, owing to the great virtue it was found to possess, in the cure of Rheumatisms, &c. the proprietor has divided the original packages, and put it up in smaller bottles made for the purpose, with directions round each bottle, signed in his own hand writing; and in order to demonstrate its vast importance, has tho't proper to submit for public inspection, the following out of the numerous cures, which by this valuable MEDICINE, has been performed since its general use in this country.

Letter from Mr. JAS WOODMAN, *near Norfolk, to Mr.* C. MULLIN.

JULY 23, 1813.

DEAR SIR—My son has been more than 8 years afflicted with a Rheumatic Complaint. The excessive pain he constantly endured, reduced him to a mere skeleton; and from extreme weakness occasioned even the joints of his legs to turn out of their sockets. A very eminent physician at Norwich, whom I consulted, informed me nothing could be done for him, and the faculty in general considered him beyond the reach of medicine. He remained in this desperate situation, till the 19th Oct. last, when I was advised to try your "*Essential Oil of the Cajiput Tree.*" Accordingly by persevering in the use of it, his joints are returned to their proper places, and he is now able to walk 10 miles with the greatest ease. Upwards of fifty respectable persons in this town, have been at my house to see my son, all who knew him, thought it impossible he ever could recover.

I am, dear sir,
Your greatly obliged friend,
JAMES WOODMAN.

Broomsgrove, Jan. 4, 1814.

SIR—I have been violently afflicted with a Rheumatic Complaint; even my fingers were so contracted, that I could neither dress nor undress myself, or give the least assistance to my family.

I have only used one bottle of the *Essential Oil of the Cajiput Tree*, and by it I am perfectly restored.

Yours, &c.
E. HOUGHTON.

December 20, 1813.

SIR—A severe stroke of the palsy, 6 months ago, deprived me of my speech and the use of one side. In this desperate situation, the *Oil of Cajiput Tree*, was strongly recommended, and I thank GOD, as successfully applied. By persevering in its use a short time, I was completely restored and continue to enjoy the perfect use of my faculties, although near 80 years of age.

Yours, &c.
W. FRANCIS.

No. 14, *Arabella Row, Pimlico.*

☞ Mr. FRANCIS has held a public situation at the Guildhall of the City of Westminster, many years, and is well known to the generality of the respectable inhabitants.

Witherslatch, near Kental, January 13, 1813.

SIR—I beg leave to inform you I have been several months past afflicted with such violent pains in my hips, thighs and legs, and swelling of my joints, that I could not rest day or night; nothing that was applied gave me any relief, till a neighbor informed me of the *Oil of the Cajiput Tree*, having performed many surprising cures, sent for a bottle to Mr. Mullin, which gave wonderful relief, and by repeating the same 2 or 3 times, I am perfectly cured, and am as well as ever I was in my life.

This I have publicly given under my hand, for the good of all sufferers in like circumstances.

R. WILSON.

The above Valuable MEDICINE is SOLD ONLY by

Pittsburgh, April 8, 1815—tf

PITTSBURGH *Manhattan School,*

FOR

YOUNG LADIES & GENTLEMEN

MR. LOOMIS, respectfully returns thanks to his patrons for their liberal patronage since the commencement of his School in this place, and informs them and the public that he continues to teach both sexes Reading, Penmanship analytically, English Grammar, English Composition, Geography, with the use of the Globes and Maps, Drawing of Maps, Bookkeeping, the Languages, &c.

The system of Education adopted in this School, will be that which is pursued in the celebrated Manhattan School, in the city of New-York, conducted by Mr. A. Picket, its successful founder; and which is acknowledged by men of the first literary reputation to be one of the best conducted Schools, in that city or in the United States. Here, about five hundred children of both sexes, comprising some of the best families in the city, constantly attend and are taught in such a manner as does the greatest honor to the teacher, and results in the happiest consequence to the pupils. It is of the utmost importance to teach children in such a manner that they will understand what they learn, and know how to applyit to the active pursuits of life. To give them words without accustoming them to attach some definite meaning to them, is, like blindfolding a man and commanding him to find a certain object; every effort leads him astray and renders him more uncertain of its attainment, so children if their minds are burdened with knowledge without understanding, find themselves uninterested in the pursuit, of course their progress in acquiring it will be but small; they must be brought to love learning if we would expect ever to teach them to good purpose, for the mind always eagerly imbraces that which it previously loves.

In this School every requisite attention will be paid to the learning and amiable deportment of the pupils, and no labour will be thought too arduous to form the young mind for future usefulness and respectability in society. The education of youth is difficult and requires unwearied attention and experience, for no man is born a teacher, it is an occupation which requires many years practice to become a proficient in the business. To his many years experience in teaching an extensive School and unwearied diligence, the subscriber looks for public patronage, pledging himself to a conscientious discharge of the duties incumbent on a teacher, he with confidence solicits the patronage of the public.

For terms of Tuition, References, &c. please to apply at the School Room, over Mr THOMAS ALGEO'S Store, Market Street.

N. B. Young Ladies will be taught plain and ornamental Needle Work, in a separate apartment, by Mrs. Loomis.

Morning Tuition will commence on the 1st of May, for Penmanship, from 6 to 8 o'clock, at Six Dollars a quarter, payable in advance

P. S. On hand and constantly for Sale, ENGLISH QUILLS of the best quality, wholesale and retail.

Pittsburgh, April 28, 1815

THOMAS POPE, *Architect,*

BRIDGE BUILDER AND LAND SURVEYOR, PITTSBURGH

RESPECTFULLY informs the public, that having the honor of possessing a practical as well as theoretical knowledge in the above professions, he is ready to furnish with suitable designs (*and execute if required*) for BRIDGES, Water Locks, &c for Canal Navigation, Churches, Town Halls, Banking Houses, Jails, Lazarettos, or any other Public Building.

Also, Gentlemens' Town Houses, Country Villas, Retreats, Conservatories, Garden Temples, and many other useful and ornamental Buildings, suited to advance and secure the comforts of retirement.

☞ Gentlemen about to build, or Master Tradesmen, may be supplied with Plans of Improvement worthy their attention.

June 1, 1815.

Late Foreign Intelligence.

BOSTON, JUNE 8.

Latest from Europe.

By the cartel ship Royal Sovereign, from Plymouth, in 34 days, we have received London papers to May 1st. They contain intelligence that hostilities had commenced between the Prussians and French, by a skirmish of advanced parties. Murat has been beaten by the Austrians, at Ferara and Ochio Bello, himself wounded, and the accounts add, completely driven out of Italy. A division of his troops, 8000 strong, was driven from Modena, April 11.

The British government are sending over to Ostend, large bodies of cavalry. Accounts state, that Lord WELLINGTON is to have 18 or 20,000 cavalry, and 500 pieces of cannon. WELLINGTON's army is in positions extending from Charlerby to Nieuport.

BRUSSELS, APRIL 15.

A courier from Vienna, who arrived to day at 1 o'clock. has brought the most important intelligence that Joachim Murat, has been completely beaten out of Italy by the Austrian army under general Frimont.

DINANT, APRIL 26.

Hostilities have begun between the Prussians and the French, yesterday evening there was an affair of out posts at Falmignoul, 2 leagues from Givet, between the Prussian lancers and a French detachment; the latter had 4 killed and lost 15 prisoners. After this affair, the French returned to Givet.

The London packet of May 1, says that in consequence of the late affray at Dartmoor, orders have been given for the embarkation of all the American prisoners, without waiting for the arrival of vessels from the U. States.

It is stated on the authority of a private letter from France, that since the allies have expressed so positive a resolution, not to treat with Napoleon Bonaparte, as the head of the French government, he is to lay aside the imperial dignity, retaining the title of generalissimo of the French armies, while his brother Lucien, together with Fouche and Carnot, are to act the part of consuls. It is asserted that this is a scheme of the noted Sieyes, who flatters himself that the allies will fall at once into the trap. To this story we attach very little credit.

LONDON, APRIL 29.

We have received Frankfort papers to the 23d, Paris to the 26th, and Dutch and Brussels to the 27th inst. The last arrived at a late hour last night, and contain official intelligence from Italy up to the 10th. It repeats that the Neapolitans were repulsed in an attack upon Ferara, and again on the 8th at Ochi-Bello. The Paris papers carry the intelligence from Italy much farther. It comes down to the 15th. Murat was at that date advancing westwardly along the right bank of the Po. On the 14th he arrived at Plaisance, which place he was expected to enter immediately. Part of his force proceeding along the Appenines, it is said threatened Alexandria and Genoa.

A Paris paper, the Gazette de France, announces the speedy departure of Bonaparte from Paris, to visit the frontier places of the North, and that his travelling carriages are ordered to be in preparation.

FURTHER EUROPEAN ADVICES,

From French Papers received in the Com Macdonough, to April 30.

Valenciennes has a garrison of 32,000, and is in the finest order; Lille has 4 divisions, two of cavalry, and a numerous artillery.

Lombardy and Venice are formed into a new kingdom, to be united to Austria, and governed by a vice-roy.

A fleet from the Baltic was daily expected at Lubec, having on board 18,000 troops of the Russian guard.

The Brussels Gazette, of 25th April, states the following interesting news.—"Sweden has acceded to the measures which the allied powers have judged it necessary to take, under existing circumstances."

The Arch Duke Charles of Austria, has been invested with the chief magistracy of the city of Mentz, agreeably to the views of the Emperor of Germany, and the other allied sovereigns; he was received with distinguished marks of affection by the people.

A Morlaix letter of the 3d May, says, "Every thing is quiet in France; all the young men are ordered to Paris."

NEW YORK, JUNE 8.

Latest from France.

Arrived at this port this morning, the brig James Monroe, capt. Skinner, in 31 days from Bordeaux. We have obtained by this arrival Paris papers to the 26th of April, and Bordeaux papers to the 1st of May inclusive.

PARIS, APRIL 22.

Marshal Ney returned to Paris 8 days ago, and took the oath at the hands of the Emperor on Wednesday last. So also did Marshals Soult, Lefebre and Serrurier.

VIENNA. APRIL 6.

We learn that the Princes SCHWARTZENBERG and BLUCHER and the duke of WELLINGTON, will each command a seperate army. They will receive the plans of operations from the head quarters of the monarchs. Lord Wellington will act on the side of the Netherlands; Blucher between the Rhine and Moselle, and Schwartzenberg on the frontiers of Switzerland.

BERLIN, APRIL 4.

The following Generals will, with the Royal Princes, command the Prussian army: Blucher, York, Kleist, Bulow, Gneiseman, Goanenzein and Borstell.

Parma, April 6.

On the 4th, the advanced guards of the Neapolitan troops having closely pursued the Austrians, who had evacuated the places as soon as they arrived, overtook them upon the Fanazo between the Bologna and Modena; there after a very animated combat, which the Neapolitans sustained for 6 hours, though they were only 6 against 12, the Neapolitans obtained a complete victory. Two generals of distinction, the Neapolitan gen. Filaugierii and the Austrian gen. Stephant were mortally wounded.

New York, June 9.

Latest from England.

The ship Ann Maria, capt. Waite, arrived here this morning, in 36 days from Liverpool. By this arrival we have received London papers to April 29, and Liverpool to the 1st May inclusive.

It is stated in one of our latest papers, that hostilities, on the part of the allies, was to commence about the 10th of May. Another paper gives a letter from Brussels, of the 24th April, announcing that an action had already been fought, and that 20 waggons filled with wounded soldiers arrived the preceding day at Brussels This intelligence, however, is doubted.

In the House of Commons on the 28th of April, Mr. Whitbread moved "An address to the Prince Regent, praying that he would be pleased to take such measures as might be necessary to prevent England from being involved in war, on the ground that the executive power of France was vested in the hands of any particular person." This motion was opposed by lord Castlereagh, who avowed that, although hostilities were directed against Bonaparte, himself, the French people would be exposed to their operation, if they supported his usurpation. The motion was negatived by a majority of 201 to 72.

The London Sun of April 28, contains a small item of intelligence of very great importance if true. It announces on the authority of private letters from France, "That nearly the whole of the French cavalry has been suddenly ordered from the Northern frontiers to Paris."

LONDON, APRIL 29.

The present journals afford very satisfactory lists of the numbers about to be brought into the field. The Russians advancing in the direction of Breslau, amount to 245,000 Hungary furnishes 42,000 men, Denmark 16,000. Sweden accedes to the Grand Alliance. The Bernese troops are already in motion; and have relieved some Austrians who proceed to another destination. Blucher's army is stated to be already 120000 strong. He was to have a conference with the duke of Wellington to settle a plan of conjoint operations. The high opinion which the Prussian hero entertains of the liberator of Spain and Portugal, renders him naturally anxious to take the earliest opportunity of conferring with so distinguished a genius, and one possessing so much local and personal information of importance to the common object.

BRUSSELS, APRIL 21.

By order of the duke of Wellington, a bridge is thrown over the Ruppel, to facilitate the passage of the German troops who are coming hither.

Lord Wellington will have a meeting with marshal Blucher, to arrange the grand military operations between the Moselle and North sea.

DRESDEN, APRIL 10.

The following proclamation shews the spirit which prevails in Saxony, and the mild disposition of its deliverers:

"We consider it necessary to declare, that attachment to the person and the cause of Napoleon, manifested by word or by actions, is an offence against the safety of the state. We therefore order that every individual who shall by words or actions exhibit an attachment to the cause of Napoleon, shall immediately be arrested and carried to the office of the Superior Police, in order to be tried and punished according to the law as a conspirator. All the Police and Judicial Authorities of Saxony are charged on their responsibility with the execution of this ordinance.

(Signed.) DE BECK, DE GAUDY,

Govs. of the Kingdom of Saxony."

PHILADELPHIA, June 13.

We have been favored by capt. Pickle, (who arrived yesterday from Madeira.) with the following important official information, relative to the force and designs of the

ALGERINE SQUADRON.

Extract of a Letter from Lisbon, dated 2d May, 1815.

"Letters from Cadiz, of April 25th, mention that the Algerine squadron has put to sea, consisting of 66 vessels, (of which we enclose particulars for your inspection) but that nobody knows the destination of this considerable force. Spain and this country are at peace with these Pirates, and America seems to be the only probable object of this expedition, and we should hope the Americans will give a good account of them."

JAMES LEANDER CATHCART.

(COPY.)

MADEIRA, MAY 14, 1815.

To the Honorable Benjamin Crowninshield, Esq. Secretary of the Navy, Washington.

SIR,

I have only time to transmit the enclosed extract and list of the naval force of Algiers, now at sea. I am of opinion that their destination is Tunis, and that they mean to co-operate with the malcontents of that Regency, in order to dethrone the present Bey, and subjugate his country, as it is hardly to be supposed that they mean to cruise in the Atlantic with gun boats. It is likewise probable that they have been informed, that during the war with Tripoli, our vessels of war, arrived in the Mediteranean either singly or in small squadrons, and that they have fitted out their whole force in order to cruise for them, and will endeavor to engage them in detail. I hope, however, that they will be disappointed, and that our squadron may arrive altogether before they return to port. I am under no apprehension for the result.

The number of men stated in the above list is incorrect, as their large frigates never have less than 500 men on board, such as they are and the other vessels in proportion. The bombards no doubt carries a mortar besides a gun, each, though not mentioned in the list; and their sending bombards with the squadron, is in my opinion, a corroborating proof that they are intended to bombard some of the towns in the regency of Tunis, with whom they are at war.

We have not heard of the arrival of the Dutch squadron in the Mediteranean nor what are the intentions of Holland relative to their affairs with Barbary.

I will forward an open copy of this and the enclosed list, by every American vessel which sails from this port, with directions to give a copy thereof to every vessel they may fall in with in hopes that it may find its way to our squadron should they be at sea, before they approach the straits of Gibraltar.

I have the honor, to subscribe myself with the most distinct respect, sir, your most obedient servant.

JAMES L. CATHCART.

From the Boston Daily Advertiser, June 19.

Under the last German dates in the English papers, part of which articles we have copied, it is stated that the Neapolitans having been defeated in 2 or 3 engagements, had been obliged to retreat and had entirely abandoned Italy, meaning probably the ci-devant kingdom of Italy. We looked for confirmation of this in our French papers which are to the end of April, but found no Italian articles whatever, which fact we considered a slight confirmation of the accounts of Murat's reverses. But in the Paris papers of an earlier date we find mention that in two affairs the Neapolitans lost 3 pieces of cannon, 400 prisoners and a standard, and in another, April 10, 500 prisoners, and as many killed and wounded, after which they retreated behind the Pinaro. Bianchi re-entered Modena on the 11th. The Journal de Paris asserts that Murat afterwards advanced and attacked and defeated the Austrians, but subsequent papers give no particulars.

From the New York Gazette, June 12.

A gentleman who came passenger in the James Monroe, informs us that Bonaparte had nearly completed the consolidation of his army, amounting to about 300,000 men; and that he intended to leave Paris the 4th or 5th of May, to take command of them in person. He has no doubt that hostile operations would immediately commence. It was believed his first object would be to encounter and if possible defeat lord Wellington, whose force consisting of Prussians, Austrians, and British amounted to 130,000.

ST. JOHNS, (N. F.) May 13.

MIRACULOUS ESCAPE,

From a gentleman who arrived here on Wednesday last from Teignmouth, in the brig Heward, Turner, master, we have received the following narrative:

On Monday the 8th inst. at about miles from land, descried some people a pan of ice, at 3 o'clock, P. M. took board 15 men and 2 boys, from whom they learn, that they had sailed from Poole the brig Benjamin, capt. Cribb, bound Trinity; that the vessel had struck against a piece of ice on Sunday about o'clock, and filled with water; that the yawl was filled with water in lowering down, and one man was drowned; the remainder 53 men and boys and woman, went in the long boat to a piece of ice; some got out, and others bailed out the Yawl, and brought her to the ice that they had saved from the wreck, a bag of bread, some pork, two cheese and some spirits, which were put into the boats; those unfortunate men that were to go in the boats and share their fate equally with the rest; but to the astonishment the boats were shoved off after giving them two oars, which they said were of service to them in preserving the ice they were on from being knocked to pieces by other ice, and for making signals; this they did by putting their hats and jackets thereon, by which means they were discovered. Not a morsel of provisions was left them, or anything to drink. They were left to the mercy of the sea, on a piece of ice about 30 feet square, not more than 12 inches out of the water at the highest place, and so thin that it would not bear a man's weight. distance from the edge; a hole had appeared in the middle which was widening it very fast, and but this assistance they must have perished. They stated that the long boat was not deep when they were all on board leaving the vessel, and might have carried them, independent of the Yawl which was also a fine boat. Being youngsters, they were not aware of the intention of leaving them, until the moment arrived, when on asking the question, they were told to their astonishment that they would be called for in the morning! One of the boys was much frost bitten in the feet. They were all put on board the Nelson, belonging to the same owners, on Tuesday last.

THE PITTSBURGH GAZETTE.

SATURDAY, JUNE 24, 1815.

In our paper of this day, will be found interesting details of foreign news, not by arrivals at Boston and New York. These last accounts agree with the former on the important point that war was inevitable. The most active preparations were making—immense armies were concentrating and marching to the appointed ground, and the probability is that ere this the contest has commenced.

If the French people really prefer the despot Bonaparte, to the mild and amiable Louis—if we could believe him sincere in his professions of a wish for peace, and of his intentions to confine his power to the limits of the ancient French dominions, then would we wish he might be able to withstand the efforts of his combined adversaries. But as we believe that his declarations of moderation and mildness are merely intended to gain him breathing time—that he is still actuated by the same relentless spirit, which has for years past spread desolation and calamity throughout Europe, we most cordially anticipate his speedy destruction.

The sweeping number of 400,000 men which report has given to the "man of blood, from the iron isle," we guess too would greatly diminish upon an accurate investigation.

The Chillicothe Supporter, of June 17, states that, "The Surveyors lately sent to survey the military bounty lands, in the Michigan territory, have returned without executing any part of the work for which they were sent out. The cause of their return was occasioned by the Indians forbidding the surveying any lands in that territory, inasmuch as they in exchange for the treaty or sale of any lands thereon. The Indians who have been arrayed against us during the late contest with Great-Britain, consider themselves as much at war now as they have during any part of the contest. When they were called together by Wm. Woodbridge, Esq. (Secretary and acting Governor of the Michigan territory) to inform them that the United States was about to cause the boundary line to be run agreeably to treaty, they desired him to point out any chief or chiefs who signed that treaty, or had consented to the sale of that tract of country, to take them and make them go with the surveyors, if they dare, and shew the line; but that he, (Mr. Woodbridge) might then take them and send them off, as those chiefs should never come to reside with them thereafter. It appears from the Indian agents or interpreters, and others who were at the treaty, that the principal chiefs in that country, *never did* sign the treaty; and that the more inferior chiefs who did sign it dare not acknowledge it at this day.

Part of the business which those surveyors were directed to do, was to run the road from the foot of the Rapids of the Miami to the western boundary of the Connecticut Reserve, and lay out the land on each side of the same in sections, agreeably to the treaty of Brownstown and the act of congress for that purpose. But as the surveyors were instructed to pursue the line as run by the commissioners in the year 1812, and that line running different from the expectations of the Indians at the time they granted the road and lands adjacent, they forbid the laying out or surveying the lands on that line, alledging that it is not run agreeably to the treaty, and that it runs through their territory in such course as to cut up their country, and incommodes their settlements much to their prejudice, and therefore will not suffer it. But if it is run agreeably to their understanding of the treaty, at the time they gave the land (for it was a gift and not a sale) they were willing to permit the lands to be surveyed. The Indians say that Lower Sandusky was to have been made

...ent, and that the original intention was to connect together the different tracts of land then belonging to the U. States, and to make a road and form a settlement for the mutual convenience of the Indians and whites. The line as run by the commissioners in 1812, passes the Sandusky river several miles above Lower Sandusky and would leave a fraction of land between the reserve at Lower Sandusky, and the lands which would adjoin the road, which appears to be a principal objection with the Indians.

From the Boston Gazette.

"OLD IRONSIDES."

The Constitution is so deservedly a favorite, that a few anecdotes of her last cruize will not be uninteresting to the public. The modest, plain letter of captain STEWART, with the accompanying extracts from the log book, have given the clearest official accounts of the action. The masterly manouvring of his ship, so as to prevent either of the enemies ships from raking him, and the final capture of them both, in such a neat, *workmanlike manner*—the prompt decision at Porto Praya, when in 7 minutes after the British squadron were first discovered, the whole of the ships had cut their cables and were at sea—the judgement in the time of giving orders to the ships to tack, which secured the Cyane first, and afterwards the Constitution, speak for themselves, and are fully appreciated by the public. It should not be forgotten too, that this same Cyane had engaged a French 44 gun frigate, last year and kept her at bay, till a ship of the line came up and captured her, and a few years since in the bay of Naples, she engaged a frigate, a brig of 14 guns, and two boats, and beat them off, for which capt. Brenton, who commanded her, was knighted—yet with the known skill of *British officers*, this same vessel, and a *sloop of war of the largest* class, with full crews of picked men were captured by an American frigate, after a short action. It is unnecessary to dwell on these circumstances.

But it is not only to skillful officers that success is due, to be successful, they must be aided by brave and excellent seamen. The crew of the Constitution, are all Yankee seamen, as docile and obedient to the ordinary discipline of the service, as they were intrepid and ardent in action. It would be easy to mention a great number of anecdotes of the heroic character of our common sailors. There are two in the action that are particularly striking. A man by the name of *Tobias Ferrell*, of Portsmouth, had his arm shattered by a ball; after the surgeon had amputated it, when he had taken up the arteries, and before the dressing was finished the cheers on deck were heard for the surrender of the Cyane, the brave fellow twitched the bleeding stump from the surgeon, and waved it, joining in the cheers! He is since dead! Another, *John Lancey*, of Cape Ann, was wounded below. one thigh shattered to pieces, and the other severely wounded; the surgeon said to him, "My brave fellow you are mortally wounded." "Yes sir, I know it—*I only want to hear that the other ship has struck!*" Soon after the cheers were given for the surrender of the Levant, he raised his head, echoed the cheer, and expired a minute after. The wounds were generally severe, and much credit is due, to the skill and humanity of Mr. Kearney, the surgeon, for his saving so many of the wounded.

WHITE LEAD.

J. S. STEVENSON.

MAKES known to the purchasers of WHITE LEAD, that he has increased his manufacture of that article, with a view to meet the widest range of an extending custom.

Having established the manufacture of this article on this side the mountains, some time since, extensively and in the highest perfection, and having done so at much expence; he will by every means sanctioned by equity and truth, maintain a claim to the custom of western purchasers. The SUPERIOR quality of the article manufactured, and his ability to vend at the lowest prices, arising from his full knowledge of the art of making it of the best kind, and with the greatest practical economy; will he hopes enable him to appear in market, with some advantage to his customers, over any establishment founded in partial knowledge. The importance to Pittsburgh of possessing manufactories, enabled on the close of war to withstand not only interior but foreign competition is too evident to be disregarded.

Purchasers of WHITE LEAD will therefore from the first day of July next, until some occurrence may materially affect the GENERAL market be supplied with Lead WARRANTED PURE, and at least equal to any in the United States at the following prices:

WHITE LEAD, dry, at Fifteen Dollars per 100 pounds.

WHITE LEAD, ground in Oil at $4 25, per keg of 28 pounds—each keg branded "STEVENSON—PITTSBURGH."

All orders addressed to him will be strictly attended to.

For the satisfaction of distant persons who may not have seen the lead, the following testimony is subjoined. Neither the integrity nor judgement of the persons can be doubted.

WE CERTIFY, that we are fully acquainted with the quality of the White Lead manufactured by J. S. Stevenson, and can state with truth that it possesses every quality to recommend it, being PURE, WHITE, smooth and free from grit, spreading and covering to advantage, and standing the weather as well as any lead we have ever used. The quality is never doubtful. The reputation of the Manufactory is unequivocal, and we give its product the TESTIMONY of a PREFERENCE in our business.

Doctor CHISHOLMS,

Anti-Bilious Pills,

OF A QUALITY

Superior to any thing of the kind ever offered as a

GENERAL MEDICINE,

IN THIS COUNTRY,

Now prepared from a recipe of the celebrated *Dr. Chisholm*, who, from a long residence in the West-India islands, has been enabled to favor the world with the most complete history, and most approved methods of curing all the BILIOUS DISEASES of those warm climates

This extraordinary medicine, which now for the first time is finding its way into general practice, has properties in the highest degree superior to the mercurial nostrums so frequently recommended by the name of Anti-Bilious Pills. The extraordinary powers of this medicine as a solvent and evacuant of bile, is without example; never producing debility, or injuring the health, in the smallest degree, of the most delicate child, or weakly female.

The BILIOUS HEAD-ACHE, so much complained of in this country, and in the neighbourhood of rivers, is often removed by a single dose, which, to a strong man, is only five pills, and to a weakly woman, three. The same dose will generally remove the most excrutiating pains of the cholic, like a charm, by abusing the bile to pass downwards in the course of an hour or two.

Two or three Pills taken an hour before dinner, and repeated every third day, will effectually remove those diseases arising from flatulency and indigestion, and by persevering in the use of them for a considerable time, the appetite will be improved, and strength and vigor will return.

Two Pills taken at bed time, with a cup of penny-royal tea, and repeated every second night, will effectually remove *Rheumatic pains*, wherever seated.

A single Pill, taken every fourth hour with a cup of flax-seed tea, will cure *Pleurisy*, promote expectoration, and relieve coughs and colds.

In CONSUMPTIVE CASES and *diseases of the liver*, no medicine ever yet discovered, has been known to perform such cures. Two Pills, taken every third morning, will be found sufficient, unless costiveness prevails; in which case, the dose may be increased according to the strength or constitution.

The *Dysentery*, *Croup*, and *Summer Complaint* on children, are soon relieved by a few doses. A single Pill to a child of 6 years old, and the dose increased according to their strength and age.

In *Asthmatic* or *Phthisical* cases, where the laborious breathing and great oppression, with faintings, are fast sinking the patient to the brink of the grave, a few Pills, taking one every hour, with fennel or pepper-mint tea, will often enable the patient to walk about in a few hours.

The above valuable Medicine is Sold

No. 154, containing 298 3-10 acres, settled by Hugh Sweny since 1805; has 20 cres cleared

No. 155, containing 235 8-10 acres, settled by M Duffey; has fifteen acres cleared

No. 156, containing 235 8-10 acres; has 15 acres cleared.

Gentlemen of respectability, who are acquainted with these lands, pronounce them to be of the very first quality; situate on good streams of water, they afford several valuable scites for mills & other water works. These advantages, with their contiguity to the county town, and Allegheny river, and in the midst of rapidly improving settlements, afford strong inducements to *capatalists*, who may be disposed to vest their cash in productive and improving property.

The whole will be sold together, or either body separately, at the option of purchasers, on such terms as will insure a handsome speculation. The title is indisputable and warranted free from incumbrance of taxes, &c. Persons wishing to view the property can apply to either of the tenants. Drafts shewn and terms of sale made known on application to the subscriber, or to Mr. JOSEPH AUDIBERT, the owner, in Philadelphia.

Doctor Handy's,

WORM DESTROYING

LOZENGES,

A safe and efficacious Medicine for destroying and bringing away

WORMS.

MAY be used with safety by children of any age, or as common physic by the most delicate constitution, in any climate, without restraint of diet, or the smallest danger from cold. It may be given with advantage after the small-pox or measles; or as a family medicine, in any case where physic is necessary. The most frequent seat of worms in the human body, is the intestinal tube; but occasionally they have been found in almost every other part of the body.

Some very extraordinary cases of *Worms*, of an unusual form and appearance, being brought away by these Lozenges, have been made public in England, where the rapid sale of the medicine has exceeded any thing of the kind ever known before; and has also proved, to a demonstration, its approved superiority, as an athelminthick, to the numerous puffed-up, useless nostrums which are daily advertised in the newspapers.

A single dose of this *valuable Medicine* has often been known to remove half a pot-full of the Teres or Round Worms.

A few doses are generally sufficient to remove the Ascarides, a small white worm, the seat of which is either the stomach or rectum.

Even the *Tape Worm*, at all times the most difficult to destroy, may, by persevering in the frequent use of this medicine, be totally removed in the course of a few weeks.

To select cases, with the names of people who are not known here, and living at a great distance, would be useless, and take up too much of the reader's time. We shall therefore only observe, for the benefit of those who are unacquainted with the symptoms of worms, that they are known or suspected to exist by a pain in the stomach, attended with a sudden depression of spirits before eating; at other times, the belly is hard, painful and distended with wind—costiveness, head-ache, and trembling of the limbs, with a sense of something rising in the throat—pale complexion and emaciated body, with weakness and irregular appetite—convulsive, epileptic, or falling fits—pains in the back and side, and frequent itching of the nose, and sometimes of the anus. The above, and a long train of afflicting diseases may all be occasioned by worms, which are much oftener the cause of death than is commonly believed.

The above valuable Medicine is sold only by

J. P. & J. W. SKELTON,

at their wholesale and retail Drug Store, at the corner of Wood and Third Streets, Pittsburgh.
